About Us

Jogatha Coffee

Jogatha Coffee is a leading exporter of premium Indonesian coffee, dedicated to delivering the finest quality green beans sourced directly from local farmers across Indonesia. We specialize in connecting the rich and diverse flavors of Indonesian coffee to markets worldwide.

At Jogatha Coffee, we are passionate about showcasing the diversity and richness of Indonesian coffee through carefully selected green beans. Our green bean selection features Arabica Kintamani, grown in the highlands of Bali, known for its smooth body, low acidity, and complex notes of floral, chocolate, and sweet herbal tones.

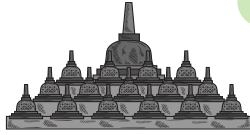

Alongside it, we offer Robusta Temanggung, cultivated in the central of Java, prized for its strong body, bold bitterness, and hints of dark cocoa and spices, making it an ideal choice for espresso blends or strong brews.
